

D LINE

For a beautifully clean pool!

BWT ROBOTIC POOL CLEANERS PROVIDE IMPECCABLE CLEANING, CLEAR WATER AND IMMACULATE SURFACES.

Excellence inside!

Excellence inside!

BWT D-LINE ROBOTIC POOL CLEANERS PROVIDE IMPECCABLE CLEANING, CLEAR WATER AND IMMACULATE SURFACES.

- ULTIMATE POWER
- SMART NAVIGATION
- 4D FILTER
- GUARANTEE 2 YEARS D200
- BIDIRECTIONAL CLEANING
- FLOOR CLEANING MODE
- WALLS CLEANING MODE
- WATER LINE CLEANING MODE
- FLOATING 18 M CABLE
- GYROSCOPE GYROSCOPE
- TRANSPORT CADDY
- PVA BRUSHES
- CLEANING CYCLE 2 HOURS
- ANTI-TANGLE SWIVEL

Cutting-edge Techniques and innovation

Just as Formula 1 engineers seek precision and high-performance, BWT teams work to design and create the best robotic cleaners on the market.

This is why Formula 1 cars are emblazoned with the BWT livery and logo on racing circuits the world over.

Best Water Technology, leader in water treatment and purification solutions, provides magnesium enriched water to hydrate pilots to stave off dehydration during gruelling races on white hot circuits.

In the competition for leadership in technology and innovation, BWT robotic pool cleaners are leading the charge.

Best Water Technology is an international group, dedicated to water and its purification. It is present in every aspect of your daily life: the galaxy of the pool, the world of the home, the hotel business, the domain of health and industry.

FOR BWT WATER QUALITY
IS MORE THAN A JOB,

it is our mission

Unmatched suction power

BWT robotic cleaners feature the most powerful suction of any robot on the market. They can double their suction power through precise adjustment of the intake valves.

The closer they are to the surface being vacuumed, the more powerful the suction. Suction can be adjusted to efficiently capture the type of debris to be picked up. Thus, close to a beach for example, the intake valves can be set down low to effortlessly remove every grain of sand.

Power inside!

Among the finest filtration performances on the market

The 4D filter consists of elastic 3D microfibre loops, which, coupled with the vibrating motion, maximises water throughput.

The vibration improves the suction power and prevents clogging of the filters.

The 4D filter traps even the tiniest impurities. From leaves to grains of sand, nothing escapes.

Finesse inside!

Ideal for your pool

BWT robotic pool cleaners are perfect for every pool of any shape up to 10 m long.

With their high density foam brushes, BWT robotic pool cleaners adapt to every pool finish.

PVA inside!

Top access and easy cleaning

BWT robotic pool cleaners are **intuitive** and easy to use. With the touch of a button the D200 gets to work all by itself. Freedom is yours!.

Simplicity inside!

Agile on any surface, with an excellent grip

BWT robotic pool cleaners easily **climb the steepest slopes**. Always astonishing to see!

Fast cleaning

BWT robotic pool cleaners move quickly and clean fast. They feature the intelligent and exclusive **Smart navigation system**.

Comprised of a gyroscope and an algorithm, the navigation system scans and detects obstacles, and then **computes the cleaning path**. The cleaning cycle is shorter and the entire surface to be cleaned is covered.

The pool floor, walls and waterline are **perfectly clean** with a minimum number of passes, and **in record time**.

Smart Navigation!

BWT D LINE 200

Technical data

Pool size	For pools up to 10 m long (any shape or surface finish)
Cleaning type	Floor, walls and waterline
Cleaning cycle duration	2 hours
Filter type	4D, hyperfine microfibre
Filter access	Top Access, Easy push button
Type of brushes	4 PVA brushes
Extra brush	Vibrating PVC brush
Navigation system	Smart Navigation
Gyroscope	Yes
Power supply	< 29 Volt, SPS Basic
Power consumption	< 150 Watt
Platform	Dual drive, Breezer technology
Suction flow rate	19 m ³ /h
Cable length	18 m, premium grey
Anti-tangle swivel	Yes
Adjustable intake	Yes, Higher suction power
External timer capability	Yes, also compatible with external WiFi
Dimensions (L x W x H)	39.1 x 46.9 x 26.8 cm
Weight	11 Kg
Storage accessory	Premium Caddy
Guarantee	2 Years

Breezer technology & Ultimate power

BWT robotic cleaners are equipped with **Breezer technology**, an efficient and **hard-wearing gear transmission**; paired with two drive motors and a **powerful pump** to collect debris, the BWT D200 is one of the most reliable pool cleaning robots on the market.

This is the **Ultimate Power** system, the ideal solution for fast, optimised travel, unrivalled reliability, and unmatched cleaning.

Energy savings

BWT robotic pool cleaners clean quickly and efficiently. They consume little energy and provide impeccable cleaning.

Ergonomic

The robotic cleaners are designed and created to be comfortable and easy to use, a push button allows the filter to be released and pulled out from above and then cleaned without getting your hands dirty.

Safe and reliable

The safety of users is of utmost importance.

This is why BWT robotic pool cleaners run off a low voltage transformer and are **fitted with an automatic stop**, as required by European standards.

The devices are also equipped with in water and out of water safety mechanisms.

Adjustable handle

The BWT D200 robotic cleaners feature an adjustable handle. In its stationary position, it can be used to carry the robotic cleaner, in the water it intelligently balances the cleaner, acting as a counterweight. The handle on the robotic pool cleaner can be set in a diagonal position to optimise the cleaner's path in the pool.

Agility inside!

D200

A world made for you!

EXCELLENCE, INTELLIGENCE, INNOVATION

The BWT world is made for you, and its robotic pool cleaners are designed with you in mind.

Don't hesitate, step into an exceptional world.
